Ted, could you send me a copy of the bibliography you and copies of the abstract pages of the articles you see fit ?
Thanks in advance.
Roger

Roger,

We have a fairly complete bibliography; however, it is about two to three years out of date. This is the bibliography prepared for the updated "Rupp" report. Also, I have hard copies for somewhat more than half of the articles. If you do not have a copy of this, I would be glad to fax it.

Best regards.

Ted

Dear Ruth and Ted,

I hope you had a safe and smooth trip back home.

Do you have a bibliography related to respiratory effects related to ETS exposure? There may be a need to check whether our legal support in Australia has captured the essence of this body of literature.

Regards,
Roger
